

At **Thomas Dudley Utility Products**, we're proud to be one of the UK's leading manufacturers of cast iron and steel utility products. From access covers and gratings to surface boxes and recessed trays, our extensive range is designed and engineered right here in the UK.

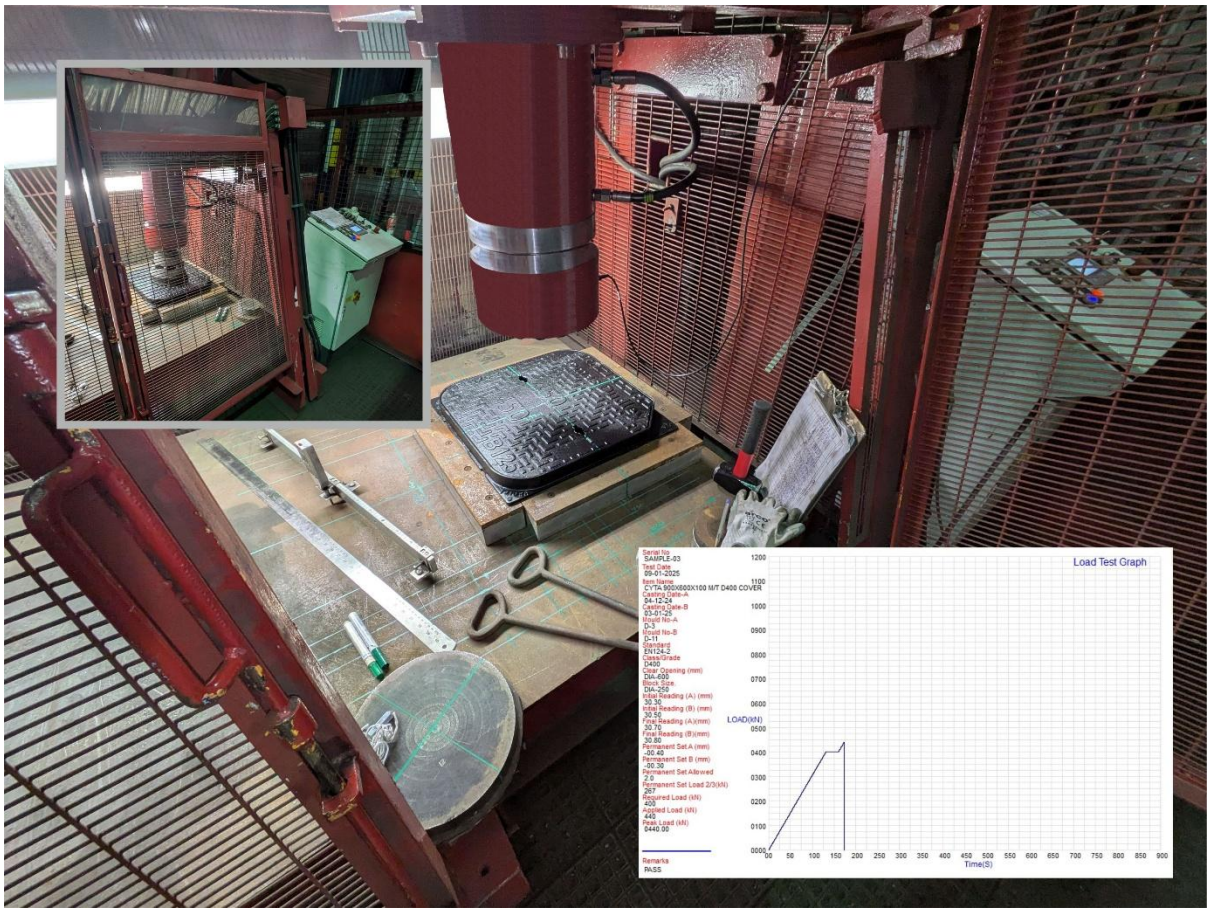

As part of the long-established **Thomas Dudley Group**, we bring over 100 years of design and manufacturing experience to every product we deliver.

Operating from a 12-acre site in Dudley, our integrated facility includes:

- A 130,000 sq. ft. covered warehouse
- A dedicated quality suite with full EN124 load testing capabilities
- In-house 3D scanning and material testing
- Office space with a multi-room conference & training centre

DEVELOPMENT

Our advanced testing equipment applies forces up to 999kN, ensuring compliance with all EN124 load classes—plus an additional 10% for added assurance. Every product is tested with precision using digitally controlled systems and simulation software to meet the highest standards.

Load testing is just a small part of Thomas Dudley's quality suite additional facilities include 3D scanning to check and confirm dimensional accuracy, material microstructure testing to ensure the material grade and structure is correct, metal flow simulation software and many other processes to guarantee our quality is second to none.

Our in-house design and technical team uses 3D CAD/CAM and FEA simulation tools to support the development of robust, high-performance castings.

Looking for a reliable, UK-based supplier with the capacity and expertise to deliver?
Get in touch with Thomas Dudley Utility Products today to see how we can support your next project. With over £3 million of stock ready for immediate despatch, we're equipped to support projects of any scale.
